

THE UNIVERSITY OF
WAIKATO
To Whare Mānanga o Waikato

Testimonial for Watershed

As well as providing teaching and research opportunities, The University of Waikato has a number of facilities that allow us to enhance the experience our staff and students have during their time here, and provide for our local community. This includes our 50-metre campus swimming pool, which is open to the public.

Kris Morris-Vette has been employed by the University for two years in a consulting/project management role, to assist with identifying and providing solutions for our 40-year-old leaky pool and dive well, as well as alterations to the treatment plant and re-writing the pool operating procedures. The improvements to the pool are in no small part due to Kris's involvement.

Kris has been very competent and professional in all of our dealings with him; any problems have been discussed and solutions found in a practical and easy manner.

We would have no hesitation in recommending Watershed to any institution, for assistance with matters of a similar nature to what Kris assisted us with.

John Cameron
Director of Facilities Management
