Kris Morris-Vette
Watershed
24 McColl Street
Newmarket
Auckland

Dear Kris

The Board of Trustees has received reports from Bryan regarding the confirmation of our 5 Year Plan for school redevelopment. It was informed by Mr Smith of the efforts you made, particularly with the Ministry, to put the Board's thoughts and plans into fruition through our 5 Year Plan. It recognised the additional efforts from yourself that were needed, particularly in terms of a Fale and the refurbishment of the Administration Block.

The Board has asked me to write and commend you for the work that you and your colleagues in Watershed Limited are doing to upgrade and maintain the infrastructure at James Cook High School. It believes that the work you are doing has lifted considerably the quality of the working environment at James Cook High School and thanks you and your team very much for this ongoing work.

We look forward to working on these projects in the future with Watershed and yourself.

Yours faithfully

B E Smith
Principal
