

Oratia District School

12 November 2010

TO WHOM IT MAY CONCERN

Oratia District School began its working relationship with Kris Morris-Vette and Watershed two years ago. We have a contract with Watershed to manage our property and projects. We intend to continue our association into 2011.

Over the two year period Watershed have managed our property requirements both large and small.

- They have looked after our 5YA requirements, obtaining quotes, overseeing the work and completing Ministry of Education paper work.
- They also look after our 10YPP requirements, which includes painting and general maintenance work.
- They project managed the building of a 3 x classroom block, which involved demolition of an existing building.
- They audited our pool management systems

We have been delighted with our association with Watershed. Their personnel are friendly, understand what we require, complete tasks in a timely and efficient manner and have a good knowledge of dealing with school projects.

We have found Kris, in particular to be knowledgeable, approachable and he has a strong 'can do' attitude. No problem or challenge has been insurmountable. We have no hesitation in recommending him and Watershed for any school property related jobs.
