

Oratia District School

1 March 2012

To whom it may concern

I am writing in support of Kris Morris-Vette and Watershed who has had a most constructive association with our school since 2009, to date

Kris' work with our school involves deployment of the cleaners who clean our school and managing school maintenance projects which fall outside the scope of the caretaker. His considerable skill as a project manager has assisted us to undertake and complete a major building project during 2010. The building project was completed on time and within budget. We have found him to be most responsive and accommodating when issues arose in the course of the building project.

In the time that we have had the pleasure of working with Kris we have found him to be very efficient, available, approachable and transparent in his communication. His communication, whether it is via email, the telephone or in person reflects a professional approach. He prepares well for each meeting and takes great care to ensure that all participants, consultants and stakeholders have opportunities to contribute without reservation. I have seen him attend to contractors in a manner that reassured me that he had our school's best interests at heart.

In the time that we have had a professional association with Kris I have recommended him to several principal colleagues who needed a trustworthy project manager.

I have no hesitation in recommending Kris as a project manager to any organisation who is looking to employ an organised, reliable and efficient professional who understands the demands and constraints inherent in school environments.
